

William Mays

Front End Engineer

+447833221113 mayswill3@hotmail.co.uk LinkedIn London, UK

SUMMARY

Senior Front-End Developer with extensive experience in all stages of the development cycle for dynamic web projects. Skilled in multiple programming languages, including HTML, CSS, JavaScript, and TypeScript, with a strong background in agile methodologies and customer relations. Passionate about building intuitive, user-focused web experiences that solve real-world problems.

EXPERIENCE

Senior Frontend Engineer

University of East Anglia 2022 - 2024 Norwich, UK

As a Senior Frontend Engineer at the University of East Anglia, I led significant improvements in the student course catalogue system:

- Developed the 'Course Catalogue' system for over 10,000 students.
- Streamlined course creation and student application processes.
- Collaborated with cross-functional teams to integrate with legacy systems.
- Reduced application processing time by 30%.

Senior Frontend Engineer

Future Platforms 2021 - 2022 London, UK

As a Senior Developer at Future Platforms, I contributed to major projects for clients including Garashield Ltd and EE:

- Led integration and scalability enhancement of Garashield Ltd's digital garage platform, ensuring seamless migration of existing pages to a modern framework.
- Added new features and optimized performance, improving user interaction by 25%.
- Worked on a project for EE to support their merger with BT, focusing on aligning systems and improving service integration.

Senior Frontend Engineer

Entain 2018 - 2020 London, UK

I spearheaded key modernization efforts to improve operational efficiency and internal processes:

Developed an internal tool that automated routine tasks and increased department productivity by 25%.

- Upgraded a 20-year-old till system to a modern real-time application for handling bets and payouts.
- Developed and launched multiple applications to provide internal teams with real-time updates, significantly enhancing efficiency.

Senior Frontend Engineer

Oliver Wyman 2017 - 2018 London, UK

I worked on various projects that spanned different industries and technologies:

- Enercity: Developed key features for a gas and electric company in Hannover using Angular 2.
- Oliver Wyman Main Site: Made improvements to the site using KO.js.
- Credit Studio: Developed a banking application for Oliver Wyman.

EDUCATION

Bachelor of Science in Computer Science

University of Hertfordshire 2014 Hatfield, UK

STRENGTHS

System Modernization

Ability to upgrade and modernize legacy systems, ensuring seamless transitions to contemporary frameworks.

Operational Efficiency

Proven track record of developing solutions that significantly enhance operational efficiency, such as real-time applications and internal tools.

Team Collaboration

Experience working with cross-functional teams to align systems and processes, highlighting strong collaborative and integration skills.

SKILLS

HTML • CSS • React • Sass

Graph QL • JavaScript • TypeScript

JSON • Version Control • Responsive Design

CERTIFICATION

BCS, The Chartered Institute for IT

PASSIONS

Coding

Enjoy building apps, with a keen interest in the financial sector and always eager to learn new technologies and techniques
